Re: Resubmission of Manuscript EVOLHUMBEHAV_2017_270

Dear Professor Hruschka,

We hereby submit a revised version of our manuscript titled “Human reciprocate intentional harm by discriminating against group peers.” We hope that you will find this version suitable for publication in *Evolution and Human Behavior*.

In the following letter, we list and respond to each of the reviewers’ comments in turn. For ease of reading, the original comments are presented in italics, and quotes from the new manuscript appear in frames.

Sincerely,

David Hugh-Jones, Itay ron, and Ro’i Zultan
